

STAB-O-MAT / STAB-O-BLOC - CD | with highest comfort properties

In order to improve the spring comfort of the STABILUS standard height adjustment, we offer the STAB-O-BLOC with **highest comfortable spring deflection properties** across the entire stroke. This solution does not require additional installation space or additional parts.

In the lowest seat position, the comfortable spring deflection is damped progressively with a special end position cushion.

Advantages:

- more spring comfort across the entire stroke
- favorable comfort/price ratio
