STABILUS ANNUAL GENERAL MEETING

Dr. Michael Büchsner, CEO and Chairman of the Management Board

Luxembourg, February 12, 2020
Disclaimer

Stabilus S.A. (the “Company”, or “Stabilus”) has prepared this presentation solely for your information. It shall not be treated as giving investment advice. Neither the Company, nor any of its directors, officers, employees, direct or indirect shareholders and advisors nor any other person shall have any liability whatsoever for any direct or indirect losses arising from any use of this presentation.

While the Company has taken reasonable care to ensure that the facts stated in this presentation are accurate and that the opinions contained in it are fair and reasonable, this presentation is selective in nature. Any opinions expressed in this presentation are subject to change without notice and neither the Company nor any other person is under any obligation to update the information contained in this presentation. Any quotes or statistics from external sources are not the information of the Company nor shall they be interpreted as an adoption or endorsement by the Company. In addition the Company shall not be liable for the external information particularly with respect to its accuracy. This presentation contains forward-looking statements, which involve risks, uncertainties and assumptions that could cause actual results, performance or events to differ materially from those described in, or expressed or implied by, such statements. The statements reflect the Company’s current knowledge and its expectations and projections about future events and may be identified by the context of such statements or words such as “anticipate,” “believe”, “estimate”, “expect”, “intend”, “plan”, “project” and “target”. No obligation is assumed to update any such statement.

Automotive Market – Asia FY2019

- Stabilus focused on gaining new business and new project acquisition successes support rising, stronger market shares in all Asian Markets in the coming years for Gas Springs and Powerise.

- With Powerise, Stabilus got awarded projects with leading Asian OEMs.

- Stabilus decided to build a new Powerise Plant in China which goes into production in April / May 2020.

- Stabilus has gained 2 DA90 projects with Asian customers and expands this innovation journey to Asia.

Trade war burdens sales. Stabilus uses growth chances and expands future automotive market shares.
Our industrial business has been awarded with development projects in the semiconductor industry for highly complex vibration elimination solutions.

The trend towards high quality products in all Asian Markets continues and supports sales growth.

Fabreeka vibrations damping solutions projects are increasing in Asia.

Our STAR Strategy is targeting to more than double the sales in the APAC region by 2025 by enforcing the local capabilities especially in China and by further deep-localization.

Our strong position in ASEAN has encourages us to open a new company in Singapore for sales and application engineering which was established in December 2019.

Our industrial business has been awarded with development projects in the semiconductor industry for highly complex vibration elimination solutions.

Industrial customers focus more on quality and high-tech solutions.
Extension Projects FY19

Hahn Gas Spring Extension  
STRO Powerise Extension  
Powerise Plant China

Capacity extensions to support future growth and to meet current demands in Germany, Romania and China for Industrial Gas Spring and Powerise were made in FY2019.
M&A

- Supplier of Motion Control Solutions to the aircraft industry.
- The rationale is to expand the motion control product portfolio in the aviation industry and to further develop the aircraft aftermarket and the retrofit business.

- Argentinian manufacturer of gas springs and dampers with focus on industrial clients, e.g. from the agricultural, engineering and transport sectors.
- The acquisition will strengthen Stabilus footprint in South America.

- Turkish manufacturer of gas springs and dampers.
- The acquisition of Piston will strengthen our product portfolio and market penetration on the industrial side of our business in the independent aftermarket.

The acquisition of three companies strengthened Stabilus Industrial portfolio.

InnoRace
New Products
Stabilus Innovation Race

Goal
- Develop new products and markets
- Make innovation everybody’s business
- Build a sustainable process for innovation

Participants
- All employees worldwide were invited to share ideas and to comment on other ideas

Ideas
- Product, process and application innovation ideas were collected

Results
- 2 series developments were started
- 4 further ideas receive sponsorship

Goal: Build an innovation culture that fuels our long-term success.
Innovation

Refocused on the impact of megatrends to our portfolio to develop the products of the future.
Innovation – New Automotive Products

**Tension Gas Spring**

**Damping in opening direction**
- Smooth dynamic damping and end-damping
- Damping not affected by temperature change
- Self opening possible

**Lift support in closing direction**
- Comfortable closing efforts – very easy to close
- Compact & flexible installation
- Dimensions comparable to standard gas spring

**Gas Damper**

**Advantages**
- Damping almost not affected by temperature change!
- Reduced trunk lid closing efforts due to temperature-independent function
- Always comfortable closing behavior
- Installation angle independent
- Almost noiseless
Innovation – New Products

Active Isolation Systems

- High-precision equipment only provides optimal results with every possible condition met. Our systems provide maximum vibration reduction.

Fabreeka-TIM® RF

- Fabreeka-TIM® RF is a high density, closed cell rigid polyurethane foam used as an effective thermal break for a variety of building envelope and cold storage applications.

Smart Products

- With Smart Products Stabilus develops from a component supplier to a system supplier. Smart Products will become a requirement for complex electrical systems.
Innovation – New Industrial Products

General Aerospace – Innovation

- **A350 Bin Lift Assist Gen3+**
  - intelligent sensor-based lift assist force for closing OHSC bins in long range A/C
  - payload-independent control of bin opening time through velocity control valve
  - protection from abuse load through overload pressure valve
