

STABILUS

077719

Replacement Instructions:

1. Follow general instructions on back of pouch. Read instructions through before beginning installation. Have someone to hold and support the hood, hatch, liftgate or trunk while replacing the old lift supports.
2. Remove old lift support and save original hardware.
3. On tube end, maintain the rubber bushing supplied by factory.
4. Install nylon washer, spring washer over stud in body and install tube-end of lift support using original e-clip.
5. Install flange bearing in rod end of lift support.
6. Install metal washer over stud in body and install rod end of lift support, using factory original nut.
7. Check that all connections are tight and secure.
