

Replacement Instructions

1. Follow general instructions on back of pouch. Read instructions through before beginning installation. Have someone to hold and support the hood, hatch, liftgate or trunk while replacing the old lift supports.
2. Remove the ball stud from the vehicle body using an open end wrench.
3. Install the provided short ball stud and washer into the vehicle body.
4. Remove the tube-end mounting bracket and old lift support from the vehicle by unbolting.
5. Install the provided longer ball stud and washer into the hole closest to the hinges of the hatch.
6. Install new lift support in the same orientation as the old lift support. Install one end at a time by simply pressing the plastic end fitting onto the ball stud.
7. Check that all connections are tight and secure.
