

Replacement Instructions

1. Follow general instructions on back of pouch. Read instructions through before beginning installation. Have someone to hold and support the hood, hatch, liftgate or trunk while replacing the old lift supports.
2. Unbolt mounting brackets and remove the old lift support from the vehicle. Keep the original mounting hardware to use in new installation.
3. Thread the new post into tube of new lift support and tighten.
4. Attach tube-end of new lift support to the original bracket using the provided roll pin.
5. Attach rod-end of new lift support to the supplied bracket using the new mounting stud, two nylon washers, and e-clip.
6. Install the new lift support, with brackets attached, in its original position using the original mounting hardware.
7. Check that all connections are tight and secure.
