

STABILUS

102336

Replacement Instructions:

1. Follow general instructions on back of pouch. Read instructions through before beginning installation. Have someone to hold and support the hood, hatch, liftgate or trunk while replacing the old lift supports.
2. Remove the original e-clip from the mounting stud on the vehicle body. Remove the tube-end of the old lift support from the mounting stud.
3. Unbolt the factory bracket from the hatch and Remove the bracket and old lift support from the vehicle by unbolting. Keep original hardware for the new installation.
4. Attach the new lift support rod end to the provided bracket: a) Insert new pin through the rod end eyelet. b) Position new spring washer over end of pin. c) Install pin through mounting bracket, d) Install new e-clip onto the pin.
5. Install the new lift support mounting bracket assembly to the vehicle hatch using the original screw.
6. Install provided plastic flange bearing over the body mounting stud and install tube end of new lift support over mounting stud.
7. Install provided metal washer over mounting stud and secure with the original e-clip.
8. Check that all connections are tight and secure.
