

STABILUS

103770

Replacement Instructions:

1. Follow general instructions on back of pouch. Read instructions through before beginning installation. Have someone to hold and support the hood, hatch, liftgate or trunk while replacing the old lift supports.
2. Remove the tube-end of the old lift support from the vehicle hatch by unbolting.
3. Install provided ball stud into the threaded hole in the hatch.
4. Remove the tube-end mounting bracket and old lift support from the vehicle by unbolting the mounting screws.
5. Attach the new lift support to the provided bracket using the provided hardware: 1) install the nylon flange bearing over the shoulder bolt, 2) insert shoulder bolt through gas spring eyelet, 3) place plastic washer over bolt.
- 4) insert bolt through bracket and attached nut.
5. Use the two original screws to install the tube-end bracket to the vehicle.
7. Install the rod-end of the new lift support by pressing the end fitting onto the ball stud.
8. Check that all connections are tight and secure.
