

Replacement Instructions

1. Follow general instructions on back of pouch. Read instructions through before beginning installation. Have someone to hold and support the hood, hatch, liftgate or trunk while replacing the old lift supports..
2. Remove existing ball stud from the vehicle body.
3. Install new ball stud and washer into vehicle body.
4. Locate the old lift support mounting bracket by first removing the plastic panel on the hatch.
5. Remove the old lift support from the vehicle by unbolting bracket.
6. Install the new bracket using the original hardware.
7. Attach the eyelet end of the new lift support to the bracket using the new hardware (mounting stud, nylon washers and e-clip).
8. Install tube-end of new lift support to the vehicle by pressing the plastic ball socket onto the ball stud.
9. Check that all Connections are tight and secure.
