

Replacement Instructions:

1. Follow general instructions on back of pouch. Read instructions through before beginning installation. Have someone to hold and support the hood, hatch, liftgate or trunk while replacing the old lift supports.
2. Remove the old gas spring by removing the Torx head bolts.
3. Install the included ball studs with the original washers into the body and hatch.
4. Install the new lift support in the same orientation as the old lift support. Install one end at a time by pressing the plastic end fitting onto the ball stud.
5. Check that all connections are tight and secure.
