

Replacement Instructions:

1. . Follow general instructions on back of pouch. Read instructions through before beginning installation. Have someone to hold and support the hood, hatch, liftgate or trunk while replacing the old lift supports.
2. Remove rod end of old lift support from vehicle body by removing bolts.
3. Install the longer ball stud and washer into the threaded hole in the vehicle's body.
4. Remove the tube-end ball stud and old lift support from the hood using an open end wrench.
5. Install shorter ball stud and washer into the threaded hole in the vehicle's hood.
6. Install new lift support in the same direction as the old lift support. Press the plastic end fitting onto the ball stud one side at a time.
7. Check that all connections are tight and secure.
