

Replacement Instructions:

1. Follow general instructions on back of pouch. Read instructions through before beginning installation. Have someone to hold and support the hood, hatch, liftgate or trunk while replacing the old lift supports.
2. Remove tube-end of the existing lift support from the vehicle hatch.
3. Install the provided ball stud into the threaded hole on the hatch.
4. Remove the rod-end bracket and lift support from the vehicle by unbolting the two mounting screws.
5. Attach the new lift support to the supplied bracket using the new hardware: 1) Insert pin through lift support eyelet, 2) Position bracket over pin, 3) Install washers over pin, 4) Install e-clip in the pin groove.
6. Install the rod-end mounting bracket to the vehicle using the original mounting screws.
7. Install the tube-end of the lift support by pressing the plastic end fitting onto the ball stud.
8. Check that all connections are tight and secure.
