

Replacement Instructions:

1. Follow general instructions on back of pouch. Read instructions through before beginning installation. Have someone to hold and support the hood, hatch, liftgate or trunk while replacing the old lift supports.
2. Remove the rod-end of the original lift support from the vehicle.
3. Unscrew the factory end fitting out of the tube of the original lift support.
4. Install the factory end fitting into the end of the tube of the new lift support.
5. Install the new lift support on vehicle in the same orientation as the original lift support.
6. Check that all connections are tight and secure.
