

Replacement Instructions

1. Follow general instructions on back of pouch. Read instructions through before beginning installation. Have someone to hold and support the hood, hatch, liftgate or trunk while replacing the old lift supports.
2. Remove the rod-end lift support from the vehicle hatch by removing bolts.
3. Remove the tube-end bracket and old lift support from the vehicle by removing the bolts.
4. Remove the tube-end mounting bracket from the old lift support by drilling out the rivet attachment and enlarge rivet hole to 5/16" diameter.
5. Install tube-end mounting bracket to the vehicle using the original screws.
6. Attach the provided hardware to the bracket as follows: 1) insert ball stud through the bracket, and 2) secure ball stud with the supplied hex nut.
7. Install supplied ball stud and washer into the vehicle hatch.
8. Install new lift support in the same direction as the old lift support. Press the plastic end fitting onto the ball stud one side at a time.
9. Check that all connections are tight and secure.
