

Replacement Instructions

1. Follow general instructions on back of pouch. Read instructions through before beginning installation. Have someone to hold and support the hood, hatch, liftgate or trunk while replacing the old lift supports.
2. Remove the rod-end of the old lift support from the vehicle body using a torx driver.
3. Install the provided ball stud into the mounting hole in the body.
4. Remove the ball socket end fitting and old lift support from the mounting stud in the hatch.
5. Install new lift support in the same direction as the old lift support. Press the plastic end fitting onto the ball stud one side at a time.
6. Check that all connections are tight and secure.
