

STABILUS

YOUR MOTION. OUR SOLUTION.

AUTOMOTIVE POWERISE COMPACT DRIVE / SD90

Summary

- Powered opening and closing of liftgates / decklids
- Stop and hold to enable programmable height feature
- Comfortable manual operating forces
- Reduced length due to drive unit being 90 degrees to stroke unit
- Module design concept with customized lengths and forces
- Pairs with Stabilus Federbein / LOM-X for managing single-sided applications

Characteristics

- 12V Power supply
- DC Motor with permanent magnetic brake (optional)
- Overload clutch (optional)
